

Feature Product

European Hinges "Soft Close"

APPLICATIONS

This soft closing hinge, with cam adjust mounting plate, is for frame-less cabinets. It's designed for 5/8" panel material and has an overlay adjustment range from 5/8" to 1/2" (see drawings below).

No magnets required here... these self-closing hinges keep your doors closed. Six way adjustability helps you hang your doors perfectly. The clip-on mounting feature allows easy door mounting after installing your new cabinets
