

# 7" Cleaning Brushes

## Brass Brushes

*Available in a package of 6 or a package of 12 brushes*

Brass Brushes are really handy for detailed cleaning of old furniture hardware, small engine parts and even automotive parts. Stripping an old piece of furniture? These brushes are great for getting into nooks and crannies when stripping the finish off furniture.

They are about the same size as a standard tooth brush and come complete with a hang hole in the end of the handle.

Need a less aggressive brush? You need the Nylon Brush shown below.

## Nylon Brushes

*Available in a package of 6 or a package of 12 brushes*

Where the brass brush is aggressive, the Nylon Brush provides a soft touch. Their primary use is for cleaning but they also fair well for spreading glue into tight areas.

They are about the same size as a standard tooth brush and come complete with a hang hole in the end of the handle.
