

V-DrillGuide™

Drill Straight - every time! Quick, easy and accurate... and it's 'pocket-size' portable!

This is the most universal and easy-to-use drill guide on the market!
 Using the V-DrillGuide will ensure straight and accurate hand drilled holes!
 The V-Groove aligns with all hole sizes for round stock or corners.

Made in U.S.A.

Bottom View

"V-Groove" design on bottom allows perpendicular alignment on round and square-cornered material.

Demo video available on-line...
blackjackcompany.com/videos.html

- Drill guide automatically aligns drill bit with work surface for precision alignment to a drill press!
- Guide prevents drill from drifting off center on round and cornered materials.

- Bottom surface of guide is precision ground to assure stability and accurate perpendicular alignment on flat surfaces.
- V-Grooved bottom provides perpendicular alignment on round and cornered materials.

- Portable, pocket-sized. Great for Field Service Kits!
- Natural non-plated steel finish.
- Made from special heat-treated nickel alloyed steel.
- Drill hole center alignment marks on both sides of guide.

Use on wood, metal or plastic.

Imperial V-Drill Guide holes are sized for ANSI Standard Drill Sizes from 1/8" through to 3/8" in 1/64" increments.

17 drill sizes include:

1/8"	7/32"	5/16"
9/64"	15/64"	21/64"
5/32"	1/4"	11/32"
11/64"	17/64"	23/64"
3/16"	9/32"	3/8"
13/64"	19/64"	

Metric V-Drill Guide
 17 metric hole sizes to work with.

17 drill sizes (mm) include:

3	5	7.5
3.3	5.5	8
3.5	6	8.5
4	6.5	9
4.2	6.8	9.5
4.5	7	

Made from a special alloyed steel that is heat treated for durability.

A great addition to anyones tool set!
