

Thru Dovetail Jig Router Bits

Thru Dovetail 2 Piece Bit Set 1/2" - 3/4"

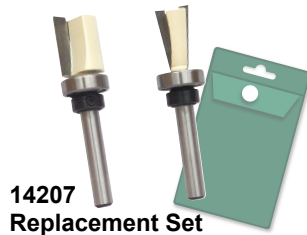

Whether you already own BlackJack's #14205 Thru Dovetail Jig or a similar Keller Thru Dovetail Jig, this is the replacement bit set you need when the original set wears down.

These bearing guided bits follow, and are supported by, the rigid jig as they cut through your project material in one pass.

This set is designed for cutting thru dovetails in material thicknesses ranging from 1/2" to 3/4".

Includes:

- bearing guided 7 degree dovetail bit 1/4" shank
- bearing guided straight bit
- carbide cutting edges on both bits

14207 Replacement Set

Thru Box Joint Router Bit with brass spacer.

Whether you're buying or already own BlackJack's #14205 Thru Dovetail Jig or a similar Keller Thru Dovetail Jig, this is the router bit you need for making box joints. This bearing guided bit follows, and is supported by, the rigid jig as it cuts through your project material in one pass.

The solid brass offset spacer included with the router bit is used for positioning the second project board. This eliminates measuring when making flush bottomed joints.

The resulting perfect box joint will add strength and character to any woodworking project.

Includes:

- bearing guided box joint bit 1/4" shank
- solid brass spacer
- carbide cutting edges

14208 Jig Box Joint Bit

Thru Dovetail Bit Set 1/8" to 3/8"

These bits are the companion router bits to our 14205 Thru Dovetail Jig. They allow you to produce the same through-style joint in materials 1/8" to 3/8". They are referred to as #3457 in the manual. Note: if you own a "Keller" jig of the same design, these bits will work for you too.

14210 1/8 - 3/8 Router Bit 2 Pc Set

Thru Dovetail Bit Set 1/4" to 1/2"

These bits are the companion router bits to our 14205 Thru Dovetail Jig. They allow you to produce the same through-style joint in materials 1/4" to 1/2". They are referred to as #3454 in the manual. Note: if you own a "Keller" jig of the same design, these bits will work for you too.

14211 1/4 - 1/2 Router Bit 2 Pc Set

Your next project just got easier!
