

3" Arbor

3" x 3/8" Arbor with Spacers

This is an extra large arbor for chuck mounting in any drill, portable or stationary.

The smooth shank is 3/8" diameter.

The threaded portion is 1/2" diameter and will hold material up to 2-1/2" thick. This allows you to assemble wide sanding mops, buffing heads or any other arbor mounted abrasive.

**Your next project
just got easier!**

Sanding Mop Arbor

This standard size arbor is perfect for chucking in a portable drill.

The smooth shank is 1/4" diameter.

The threaded portion is 1/2" diameter and will hold material up to 3/4" thick.

This allows you to assemble standard sanding mops, thin buffing heads, small wire wheels or other arbor mounted abrasives.

**Your next project
just got easier!**
