

Trim Cutters

Small Trim Cutter

Cuts like butter!

- Perfect for cutting trims like quarter round.
- Quickly snip your dowel to the required length.
 - When not in use, lock the safety catch, protecting your fingers and the blade.
- Small and large hands can easily squeeze the handles together to make the cut, as the handles are only 3" apart when fully extended.

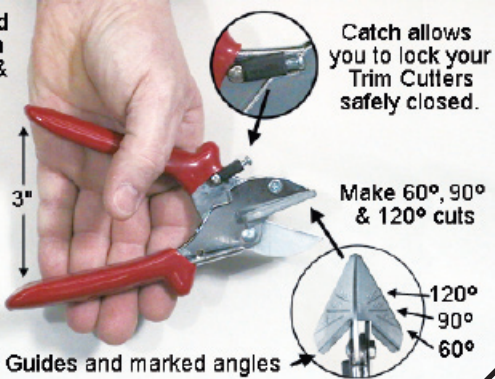

Attention Teachers!

This Trim Cutter is exactly what your classroom needs for cutting structure wood.

Plastic coated handles for a comfortable & secure grip.

Great for smaller hands too!
3"

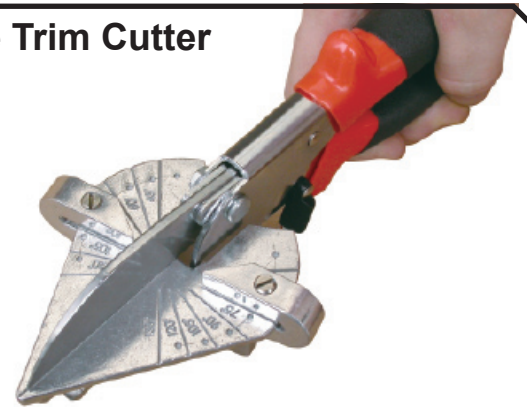

Catch allows you to lock your Trim Cutters safely closed.

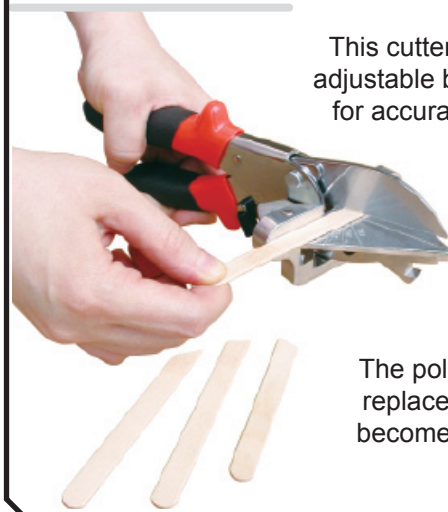

Make 60°, 90° & 120° cuts

Large Trim Cutter

- Cuts 45° PLUS... 60°, 90° and 120° markings are etched into the base.
- Plastic coated handles make a comfortable and secure grip.
- The base also has recessed guides to make cutting the proper angle a snap!

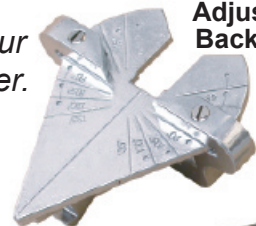

This cutter has an adjustable back stop for accurate cuts.

The polished blade is replaceable should it become dull with use.

Upgrade your old trim cutter.

Adjustable Back Stop

Replacement Blade Large

Replacement Blade Small
